Mallow Marveils. Red. Bright flowers like single hollyhocks, often six inches across. Height two to four feet. 1-year plants 35c each.

Myosotis (Forget-me-not). Small rich blue flowers with yellow eye. Likes moist location. 25c each.

Oenothera, Youngi (Evening Primrose). Bright yellow flowers borne on two-foot stems in June. 25c each.

Rudbeckia, Golden Glow. Grows four to six feet high, bearing bright golden flowers all summer. 20c each; \$2.00 per doz.

Stokesia (Cornflower Aster). Light blue flowers in early summer. 18 to 24 in. high. 20c each; \$2.00 per doz.

Sweet William. Somewhat resembles Phlox but with rather broad, compact trusses instead of pyramidal panicles, and more varied in color—white, pink, red, crimson and variegated; blooms profusely in May; fragrant. For most imposing effects plant in large groups. Mixed (cannot supply separate colors). 15c each; 3 for 40c; \$1.50 per doz.; 2 doz. for \$2.50; 4 doz. and over at \$1.00 per doz.

Violets, Sweet Russian, Single. The hardest of violets, easily grown; fine single deep-purple violets with delicate fragrance. 10c each; 3 for 25c; 12 for 75c; 25 for \$1.50.

ROCK GARDEN AT SARCOXIE NURSERIES. PLANTED FALL 1927. PHOTOGRAPHED MAY 1928.

An excellent effect may be secured in one season by using such plants as Elder and Shasta Daisies, Sweet Williams, Gaillardias, Delphinium or Larkspur, Violets and such. Other plants, typically Rockery and Alpine, with wild flowers, may be added from year to year. The dwarfier evergreens, such as Savin Juniper and Mugho Pine, fit in well in many spaces, with perhaps tall evergreens for a background.

Superb Hardy Phlox

PRICES: Strong field-grown plants that bloom the first summer. 20c each; \$2.00 per doz.; 6 at doz. rate.

Eclairer. Rich crimson-carmine; darker eye.

F. A. Buchner. A fine large white.

La Vague. Mauve-pink, aniline-red eye; large floret, heavy truss; tall, blooms freely.

Miss Lingard. The earliest in this list; pure white, faint lilac eye; tall; excellent.

Mrs. Jenkins. A good early white; blooms freely.

R. P. Struthers. Clear cherry-red with darker eye; large floret, heavy truss; tall; growth strong.

Rheinlander. Beautiful salmon-pink.

Rheinstrom. Salmon-pink, clear and bright; a good grower.

Richard Wallace. White, prominent carmine eye.

Von Hochberg. Ideal dark crimson; large.

Fall is the best time to plant Phlox. Succeeds in almost any soil and blooms through a long season

PLANTS which are planted in the fall have a better chance to become established; losing no time in the spring in starting their growth. Fall planted materials will completely surpass in growth similar materials handled in the spring season.

Parcel Post If wanted by parcel post allow extra for postage. Any balance will be refunded. Trees and shrubs larger than 3 to 4 feet, and Evergreens, cannot be sent by parcel post.

Hardy Phlox

Peonies

Sizes, Prices and Descriptions

The guards are the wide outer petals. Bomb, crown, semi-rose and rose is the type or form of flower as follows:

Crown Wide center or crown petals with narrower, shorter petals forming a collar or ring between them and the guards. The crown petals are not always prominent.

Bomb Central petals of uniform width but narrower than the guards and forming a globe within the guards.

Semi-Rose Flowers that would be classed as rose but for an occasional pollen-bearing stamen.

Rose Perfectly full, all petals wide, no stamens. The central petals may not be as wide as the guards, but if quite distinct it would be a bomb.

Pennant Mixed Peonies

If you want something good at a moderate price and are not particular what varieties and colors, just so they are nice, order Pennant Mixed. This is not a cheap lot of undesirable varieties, but a really good mixture of named Peonies, the leading commercial varieties predominating. Do not ask for certain colors of these as they are grown mixed. 25c each; \$2.00 per doz.; 50 or more at 16c each.

Prices are for good strong divisions of 3 to 5 eyes, from blooming plants. We consider them fully equal to one-year plants, they cost less and average larger than the one-year plants usually sent out. If you want something larger order 5 to 8 eyes at 50% advance, or 8 to 10 eyes at double the printed price.
